How to Sign Up for Summer School

1. Students will meet with their counselors to identify which classes are best for the student to take during summer school. During this meeting, students will need to tell counselors what summer school site they will attend, Adelanto High School or Victor Valley High School.

2. The student’s counselor will input the recommended course and site into the AERIES student database. Summer School course requests must be uploaded by your counselor in AERIES by FRIDAY APRIL 5, 2019.

3. Parents can view the summer school course recommendation and site selection by logging on to the AERIES system. Parents who have questions regarding the selection will need to contact the student’s counselor.

STUDENTS MAY ENROLL IN TWO (2) SEMESTER COURSES
Additional courses may be approved by Summer Counselor/Coordinator

*All classes contingent upon enrollment
*Home internet access is required for students who choose to enroll in an APEX online course.

- AX = APEX Online (Home internet access required)
- ST = Seat Time
- IS = Independent Study
Victor Valley Union High School District's 2019 summer session will consist of 4 weeks of school beginning June 3rd through June 28th. This means you must remain focused and work diligently to advance through the coursework to earn your credits. Summer School will be offered at two locations, Victor Valley High School and Adelanto High School. Students will only be allowed to request courses at one site. Both summer school sites will offer APEX online, independent study packets, and seat time programs, each program has unique attendance requirements.

APEX:
Not NCAA compliant

APEX is an independent study program utilizing computer based software. Students must have a computer, with internet access, outside of the classroom and must be prepared to spend a minimum of two hours per day in the online courses, in addition to attending the lab on campus two times per week while earning a minimum of two credits per week. Failure to attend a minimum of one lab per a week will result in the student being dropped from the course. Students who have not earned credit by the second week will be dropped from the course.

Seat Time:

Seat Time students are expected to commit to the full term of Summer School. Students are allowed no more than two absences; upon the third absence, credit cannot be earned and the student will be dropped. Three tardies to a class are equivalent to one absence. There are no "excused" or "unexcused" absences during summer school. Seat time students will not be added to a class after the first two days.

Independent Study:

Independent Study is an independent student program utilizing textbooks, where students complete assignments at home and come to school twice per week to take tests and receive new assignments. Failure to attend class and/or take a test once a week will result in the student being dropped from the course. Students who have not earned credit by the second week will be dropped from the course.

Behavior:
Student participation in summer school is not required by law in the same way as it is during the regular school year. Students who commit a suspendable offense will be dropped from summer school. If behavior and attendance rules are broken during the summer term, the Summer School Coordinator can dismiss a student from summer school immediately. Complete Summer School rules will be posted on the district’s Summer School website.

SUMMER SCHOOL DATES
Monday-Friday
June 3rd - June 28th

SUMMER SCHOOL HOURS
Campus Open 8:00 - 2:30
