**Sector Description**

The Education, Child Development, and Family Services sector provides students with the academic and technical preparation to pursue high-skill, high-demand careers in these related and growing industries. The sector encompasses four distinct, yet interrelated, career pathways: Child Development, Consumer Services, Education, and Family and Human Services. The Child Development pathway provides students with the skills and knowledge they need to pursue careers in child care and related fields, and the Education pathway emphasizes the preparation of students to become teachers. The Consumer Services pathway gives students the employment and management skills needed in careers that involve helping consumers. The Family and Human Services pathway provides students with skills needed for careers related to family and social services. The standards are designed to integrate academic and career technical concepts. The anchor standards include Consumer and Family Studies comprehensive technical knowledge and skills that prepare students for learning in the pathways. The knowledge and skills are acquired within a sequential, standards-based pathway program that integrates hands-on projects, work-based instruction, and leadership development—for example, through FHA-HERO, the California affiliate of Family, Career and Community Leaders of America (FCCLA). Standards in the Education, Child Development, and Family Services sector are designed to prepare students for technical training, postsecondary education, and entry to a career.
1.0 Academics
Analyze and apply appropriate academic standards required for successful industry sector pathway completion leading to postsecondary education and employment. Refer to the Education, Child Development, and Family Services academic alignment matrix for identification of standards.

2.0 Communications
Acquire and accurately use Education, Child Development, and Family Services sector terminology and protocols at the career and college readiness level for communicating effectively in oral, written, and multimedia formats. (Direct alignment with LS 9-10, 11-12.6)

2.1 Recognize the elements of communication using a sender–receiver model.
2.2 Identify barriers to accurate and appropriate communication.
2.3 Interpret verbal and nonverbal communications and respond appropriately.
2.4 Demonstrate elements of written and electronic communication, such as accurate spelling, grammar, and format.
2.5 Communicate information and ideas effectively to multiple audiences using a variety of media and formats.
2.6 Advocate and practice safe, legal, and responsible use of digital media information and communications technologies.

3.0 Career Planning and Management
Integrate multiple sources of career information from diverse formats to make informed career decisions, solve problems, and manage personal career plans. (Direct alignment with SLS 11-12.2)

3.1 Identify personal interests, aptitudes, information, and skills necessary for informed career decision making.
3.2 Evaluate personal character traits, such as trust, respect, and responsibility, and understand the impact they can have on career success.
3.3 Explore how information and communication technologies are used in career planning and decision making.
3.4 Research the scope of career opportunities available and the requirements for education, training, certification, and licensure.
3.5 Integrate changing employment trends, societal needs, and economic conditions into career planning.
3.6 Recognize the role and function of professional organizations, industry associations, and organized labor in a productive society.
3.7 Recognize the importance of small business in the California and global economies.
3.8 Understand how digital media are used by potential employers and postsecondary agencies to evaluate candidates.
3.9 Develop a career plan that reflects career interests, pathways, and postsecondary options.
4.0 Technology
Use existing and emerging technology to investigate, research, and produce products and services, including new information, as required in the Education, Child Development, and Family Services sector workplace environment. (Direct alignment with WS 11-12.6)

4.1 Use electronic reference materials to gather information and produce products and services.
4.2 Employ Web-based communications responsibly and effectively to explore complex systems and issues.
4.3 Use information and communication technologies to synthesize, summarize, compare, and contrast information from multiple sources.
4.4 Discern the quality and value of information collected using digital technologies, and recognize bias and intent of the associated sources.
4.5 Research past, present, and projected technological advances as they impact a particular pathway.
4.6 Assess the value of various information and communication technologies to interact with constituent populations as part of a search of the current literature or in relation to the information task.

5.0 Problem Solving and Critical Thinking
Conduct short, as well as more sustained, research to create alternative solutions to answer a question or solve a problem unique to the Education, Child Development, and Family Services sector using critical and creative thinking, logical reasoning, analysis, inquiry, and problem-solving techniques. (Direct alignment with WS 11-12.7)

5.1 Identify and ask significant questions that clarify various points of view to solve problems.
5.2 Solve predictable and unpredictable work-related problems using various types of reasoning (inductive, deductive) as appropriate.
5.3 Use systems thinking to analyze how various components interact with each other to produce outcomes in a complex work environment.
5.4 Interpret information and draw conclusions, based on the best analysis, to make informed decisions.

6.0 Health and Safety
Demonstrate health and safety procedures, regulations, and personal health practices and determine the meaning of symbols, key terms, and domain-specific words and phrases as related to the Education, Child Development, and Family Services sector workplace environment. (Direct alignment with RSTS 9-10, 11-12.4)

6.1 Locate, and adhere to, Material Safety Data Sheet (MSDS) instructions.
6.2 Interpret policies, procedures, and regulations for the workplace environment, including employer and employee responsibilities.
6.3 Use health and safety practices for storing, cleaning, and maintaining tools, equipment, and supplies.
6.4 Practice personal safety when lifting, bending, or moving equipment and supplies.
6.5 Demonstrate how to prevent and respond to work-related accidents or injuries; this includes demonstrating an understanding of ergonomics.
6.6 Maintain a safe and healthful working environment.
6.7 Be informed of laws/acts pertaining to the Occupational Safety and Health Administration (OSHA).

7.0 Responsibility and Flexibility
Initiate, and participate in, a range of collaborations demonstrating behaviors that reflect personal and professional responsibility, flexibility, and respect in the Education, Child Development, and Family Services sector workplace environment and community settings. (Direct alignment with SLS 9-10, 11-12.1)

7.1 Recognize how financial management impacts the economy, workforce, and community.
7.2 Explain the importance of accountability and responsibility in fulfilling personal, community, and workplace roles.
7.3 Understand the need to adapt to changing and varied roles and responsibilities.
7.4 Practice time management and efficiency to fulfill responsibilities.
7.5 Apply high-quality techniques to product or presentation design and development.
7.6 Demonstrate knowledge and practice of responsible financial management.
7.7 Demonstrate the qualities and behaviors that constitute a positive and professional work demeanor, including appropriate attire for the profession.
7.8 Explore issues of global significance and document the impact on the Education, Child Development, and Family Services sector.

8.0 Ethics and Legal Responsibilities
Practice professional, ethical, and legal behavior, responding thoughtfully to diverse perspectives and resolving contradictions when possible, consistent with applicable laws, regulations, and organizational norms. (Direct alignment with SLS 11-12.1d)

8.1 Access, analyze, and implement quality assurance standards of practice.
8.2 Identify local, district, state, and federal regulatory agencies, entities, laws, and regulations related to the Education, Child Development, and Family Services industry sector.
8.3 Demonstrate ethical and legal practices consistent with Education, Child Development, and Family Services sector workplace standards.
8.4 Explain the importance of personal integrity, confidentiality, and ethical behavior in the workplace.
8.5 Analyze organizational culture and practices within the workplace environment.
8.6 Adhere to copyright and intellectual property laws and regulations, and use and appropriately cite proprietary information.

8.7 Conform to rules and regulations regarding sharing of confidential information, as determined by Education, Child Development, and Family Services sector laws and practices.

9.0 Leadership and Teamwork

Work with peers to promote divergent and creative perspectives, effective leadership, group dynamics, team and individual decision making, benefits of workforce diversity, and conflict resolution as practiced in the career technical student organization (FHA-HERO, the California Affiliate of FCCLA). (Direct alignment with SLS 11-12.1b)

9.1 Define leadership and identify the responsibilities, competencies, and behaviors of successful leaders.

9.2 Identify the characteristics of successful teams, including leadership, cooperation, collaboration, and effective decision-making skills, as applied in groups, teams, and career technical student organization activities.

9.3 Understand the characteristics and benefits of teamwork, leadership, and citizenship in the school, community, and workplace setting.

9.4 Explain how professional associations and organizations (such as FHA-HERO) and associated leadership development and competitive career development activities enhance academic preparation, promote career choices, and contribute to employment opportunities.

9.5 Understand that the modern world is an international community and requires an expanded global view.

9.6 Respect individual and cultural differences and recognize the importance of diversity in the workplace.

9.7 Participate in interactive teamwork to solve real Education, Child Development, and Family Services sector issues and problems.

10.0 Technical Knowledge and Skills

Apply essential technical knowledge and skills common to all pathways in the Education, Child Development, and Family Services sector, following procedures when carrying out experiments or performing technical tasks. (Direct alignment with WS 11-12.6)

This section is specific to the foundational knowledge and skills required for Consumer and Family Studies.

10.1 Interpret and explain terminology and practices specific to the Education, Child Development, and Family Services sector.

10.2 Comply with the rules, regulations, and expectations of all aspects of the Education, Child Development, and Family Services sector.

10.3 Construct projects and products specific to the Education, Child Development, and Family Services sector requirements and expectations.
10.4 Collaborate with industry experts for specific technical knowledge and skills.

10.5 Summarize the decisions and responsibilities involved in parenting in various cultures.

10.6 Describe and identify the stages of pregnancy, from conception through birth, and the implications of environment and heredity on the health and well-being of a child.

10.7 Explain the importance of studying child growth and development from infancy through adolescence.

10.8 Explain positive guidance and discipline techniques that promote feelings of self-worth as they apply to the developmental stages of children.

10.9 Demonstrate an understanding of the value and methods of providing infants, children, and adolescents with play and developmentally appropriate learning activities.

10.10 Describe the process of making consumer decisions, including the comparison of goods and services.

10.11 Practice how to manage financial resources to achieve personal and family goals.

10.12 Compare consumer resources, rights, and responsibilities and their relationship to the various levels of the economy.

10.13 Recognize the function of the family as a basic unit of society and the contributions of the family unit to the development of individuals.

10.14 Analyze the factors that affect the development of individuals and how to build positive relationships.

10.15 Describe the adjustments needed to adapt to major life changes throughout the human life cycle.

10.16 Apply strategies and resources for managing conflicts and crises.

10.17 Summarize the importance of wellness and safety to individual and family health and well-being.

10.18 Demonstrate an understanding of how to prevent and control infection and disease to produce the optimum health of individuals and families.

10.19 Explain the strategies that enable persons to manage and balance personal, family, and work responsibilities to enhance productivity and attain a quality of life.

10.20 Assess the individual, family, and workplace factors that influence decisions at each stage of the human life cycle.

10.21 Demonstrate an understanding of how knowledge, skills, attitudes, and behaviors learned in consumer and family studies can be transferred to advanced training and education or to careers related to the Education, Child Development, and Family Services sector.

11.0 Demonstration and Application

Demonstrate and apply the knowledge and skills contained in the Education, Child Development, and Family Services anchor standards, pathway standards, and performance indicators in classroom, laboratory and workplace settings, and through the career technical student organization (FHA-HERO, the California Affiliate of FCCLA).
11.1 Utilize work-based/workplace learning experiences to demonstrate and expand upon knowledge and skills gained during classroom instruction and laboratory practices specific to the Education, Child Development, and Family Services sector program of study.

11.2 Demonstrate proficiency in a career technical pathway that leads to certification, licensure, and/or continued learning at the postsecondary level.

11.3 Demonstrate entrepreneurship skills and knowledge of self-employment options and innovative ventures.

11.4 Employ entrepreneurial practices and behaviors appropriate to Education, Child Development, and Family Services sector opportunities.

11.5 Create a portfolio, or similar collection of work, that offers evidence through assessment and evaluation of skills and knowledge competency as contained in the anchor standards, pathway standards, and performance indicators.
A. Child Development Pathway

The Child Development pathway is designed to prepare students to pursue a career in the field of child care and development for infants, toddlers, and young children. Students study child growth and development, safety and emergency procedures, nutrition and health practices, positive interaction and guidance techniques, learning theories, and developmentally appropriate practices and curriculum activities. Students apply this knowledge in a variety of early childhood programs, such as child development laboratories, public and private preschools, family day care settings, and recreational facilities. Students completing the program may apply for the Child Development Assistant Permit from the California Commission on Teacher Credentialing.

Sample occupations associated with this pathway:
- Child Care Worker
- Child Development Specialist
- Child Psychologist
- Family Service Advocate

A1.0 Recognize the essential aspects of the early childhood education, child care, and development industry and the industry's role in state and local economies.

A1.1 Describe the organizational structures in early childhood education, child care, and development facilities.

A1.2 Explain the effect of the child care and development industry on state and local economies.

A1.3 Understand the interdependence of various career roles and how those roles contribute to the success of the child care and development program or work site.

A1.4 Research the functions and roles of the various careers in the child care and development industry.

A1.5 Identify the components of professionalism and how to practice professional behaviors.

A1.6 Analyze the legislative, economic, educational, and social trends that affect the child care and development industry.

A2.0 Identify and apply operational procedures and organizational policies at various early childhood education, child care, and development facilities.

A2.1 Identify the operational procedures at various types of facilities and their importance to the success of the organization.

A2.2 Understand the operational policies and procedures related to early education, child care, and development program components (e.g., adult–child and adult–guardian interaction, physical environment, health, safety, nutrition, curriculum, and assessment).
A2.3 Explain the importance of, and procedures for, keeping child and classroom records and documentation.

A2.4 Summarize appropriate business systems that help with billing, ordering, budgeting, collecting fees, and reporting requirements.

A2.5 Illustrate the workforce management strategies that are effective for planning, making decisions, sharing responsibility, and negotiating.

A3.0 Summarize child care and development standards, licensing, regulations, and codes, including California Code of Regulations Title 5 and Title 22.

A3.1 Recognize the standards and licensing regulations for child care facilities.

A3.2 Identify the educational and industry-related requirements for child care facilities staff.

A3.3 Understand how local, state, and federal laws and regulations for child care facilities are enforced by regulatory agencies.

A3.4 Adhere to the health, safety, regulatory, and procedural requirements for the work site.

A3.5 Summarize the employer and employee responsibilities for complying with laws and regulations affecting the needs, interests, and rights of young children.

A3.6 Detect the indicators of child abuse or neglect and the responsibilities of staff as mandated reporters.

A4.0 Apply critical safety, emergency, and disaster procedures at the work site.

A4.1 Understand the state and federal environmental and safety regulations and the use of Material Safety Data Sheets (MSDS) as they relate to the child care and development industry.

A4.2 Implement the staff procedures, duties, and responsibilities related to safety, emergency, and disaster preparedness plans.

A4.3 Demonstrate how and when to use certified first aid, cardiopulmonary resuscitation (CPR), and other emergency procedures.

A4.4 Predict the typical hazards at the work site and know procedures and practices that contribute to a safe and healthy environment.

A5.0 Explain important elements of a child’s physical, intellectual, emotional, and social growth and development.

A5.1 List the biological and environmental factors that influence the development of infants, toddlers, and children.

A5.2 Describe the developmental stages of infants, toddlers, and children.

A5.3 Summarize the ways in which diversity, family, and culture influence the development of children.

A5.4 Understand the importance of including infants, toddlers, and children with special needs.
A5.5 Analyze the importance of observational assessment and how to link assessment findings to individualized child planning.

A5.6 Evaluate the importance of learning environments, experiences, and interactions and their connections to each stage of physical, intellectual, social, and emotional development.

A5.7 Defend the benefits of parental involvement to the development of a child's physical, intellectual, emotional, and social growth and development.

A6.0 Employ the principles of positive interactions, guidance, and discipline in the workplace.

A6.1 Describe how to help children develop a positive self-image and self-esteem and develop self-discipline and respect for oneself and others.

A6.2 Use the importance of building positive relationships between the caregiver, children, and families to provide effective guidance and discipline.

A6.3 Diagram the elements of positive guidance and discipline techniques that are based on the stages of children's development.

A6.4 Identify practical strategies for finding positive solutions to common behavioral problems.

A6.5 Plan and demonstrate how the staff can adjust the environment to promote a child's independence and personal and social competence.

A7.0 Compare and apply the essential components of an effective learning environment for the early childhood classroom.

A7.1 Describe the components of an effective learning environment that reflects children's interests and developmental needs.

A7.2 Identify the early childhood education classroom learning areas and the contribution of each to the development of children.

A7.3 Classify multiple ways of promoting children's learning at different developmental stages and ages by using the continuum of teaching behaviors from directive to nondirective.

A7.4 Demonstrate appropriate teaching techniques and interaction styles for working with children of varying ages, learning styles, and cultural backgrounds.

A7.5 Illustrate the ways in which classroom environments promote productive interaction among children and adults to create a positive atmosphere and sense of community.

A7.6 Research and present the major learning theories and curriculum models and evaluate their application in early childhood education programs.

A8.0 Select and apply developmentally appropriate practices for curriculum development.

A8.1 Develop components of a developmentally appropriate curriculum in each area of the balanced daily routine: indoor/outdoor, quiet/active, individual and small group/large group, large muscle/small muscle, and child-initiated and staff-initiated activities.
A8.2 Observe children and document the observations in a factual and anecdotal format tying observations to developmental milestones.

A8.3 Integrate language acquisition strategies and support for English-language learners.

A8.4 Plan and conduct activities that reinforce foundation skills, reflect an integrated and emergent curriculum, and support school readiness.

A9.0 Practice the principles and practices of good nutrition, health, and safety for infants and children.

A9.1 List the procedures used to clean a facility that follow a logical sequence and universal health precautions.

A9.2 Practice the procedures for preventing the spread of infections and illnesses, including those for food-borne pathogens.

A9.3 Use the appropriate sanitation and hygiene techniques for infants, toddlers, children, and staff.

A9.4 Communicate the proper procedures to follow when preparing and serving nutritional snacks and meals, including those that foster independent eating practices and promote good nutrition and hygiene habits.

A9.5 Recognize, describe, and report signs and symptoms of illness, injury, discomfort, or special needs in infants, toddlers, and children.

A10.0 Communicate and interact effectively with families and communities.

A10.1 Name the benefits of establishing strong relationships with families and communities.

A10.2 Interpret how positive family–staff relationships, family members, and the community contribute to the physical, intellectual, social, and emotional development of the child.

A10.3 Compare and contrast how language, culture, and educational backgrounds may affect family structures and communication within and among families and communities.

A10.4 Devise ways to use opportunities throughout the daily routine to build trusting relationships and effective communication with families and others.

A10.5 Advocate for high-quality programs and services for children and families.

A11.0 Identify teaching materials and resources that enhance classroom instruction and indoor and outdoor learning in early childhood education, child care, and development programs.

A11.1 Select and develop age-appropriate and developmentally appropriate teaching materials and resources.

A11.2 Use the appropriate and current instructional technology and equipment to develop program materials and support learning.

A11.3 Evaluate the various types and sources of quality, age-appropriate, and developmentally appropriate materials and equipment.
A12.0 Illustrate how to support the learning process in an assisting role.

A12.1 Define the strategies for supervising and maintaining a supportive learning environment for infants, toddlers, and children.

A12.2 Understand the established standards and the standard operating procedures in classrooms, libraries, halls, and bathrooms and on the school grounds.

A12.3 Classify the typical learning challenges that students encounter in curricular areas.

A12.4 Implement planned activities to facilitate multidisciplinary learning and reinforce concepts.

A12.5 Differentiate how to provide instructional assistance to small and large learning groups.

A12.6 Identify and compile samples used for assessing a child and developing a portfolio.
B. Consumer Services Pathway

The Consumer Services pathway focuses on a broad-based curriculum designed to prepare students for careers helping customers, including credit counselors, consumer reporters, writers, and consumer affairs directors. Students learn employment, entrepreneurial, and management skills that include business structure; consumer rights and responsibilities; testing and demonstration of products; consumer communications; and energy, environment, and resource management.

Sample occupations associated with this pathway:
- Media Product Demonstrator
- Customer Service Representative
- Personal Financial Advisor
- Accountant
- Credit Counselor

B1.0 Describe important aspects of the consumer services industry and the role of the industry in local, state, national, and global economies.

B1.1 Identify the ways in which national and international policies and procedures affect the daily operations of a consumer services organization.

B1.2 Summarize the legislative, economic, educational, and social trends that affect careers in the consumer services industry.

B1.3 Explain the effect of this industry on businesses and the state's economy.

C. Education Pathway

The Education pathway is designed to prepare students for professional or learning support positions in education, prekindergarten through grade twelve. Students study human development; standards, regulations, and codes; positive guidance and counseling techniques; age-appropriate and grade-appropriate learning strategies; learning theories; and standards-based curriculum and instructional design. Students can apply and practice their knowledge and skills at a variety of elementary and secondary education sites.

Sample occupations associated with this pathway:
- Before/Afterschool Program Aide
- Primary/Secondary School Teacher
- School Counselor
- Educational Administrator
- Speech Therapist

C1.0 Describe the structure of the education industry and its role in local, state, and global economies.

C1.1 Identify the effect of the education industry on state and local economies.

C1.2 Describe the basic structure of public education in California (e.g., prekindergarten through grade twelve, community college, the California State University, the University of California), as well as private institutions.

C1.3 Understand the legislative, economic, and social trends that affect the education industry.

C1.4 Explain the differences in organizational structures at educational facilities, including relationships and interactions among personnel.

C2.0 Name operational procedures and organizational policies at various levels in education.

C2.1 Identify the business procedures related to the acquisition of supplies and collection of fees.

C2.2 Recognize the main workforce management strategies in education (e.g., shared responsibility and negotiation).

C2.3 Implement appropriate procedures at the classroom level (e.g., attendance; observations; evaluations; illness, incident, accident, and injury reports).

C3.0 State specific applications of government regulations in the education industry.

C3.1 Describe the critical health and safety procedures that are used at a school site.

C3.2 Identify the indicators of child abuse and neglect and the role of the mandated reporter.
C3.3  Locate and understand the credentialing requirements for teachers of students in prekindergarten through community college.

C4.0  Practice critical emergency and disaster procedures at a school site.
   C4.1  Identify state and federal environmental and safety regulations and the use of Material Safety Data Sheets (MSDS) as they relate to the education industry.
   C4.2  Recognize the typical hazards at the work site and know the procedures and practices that contribute to a safe and healthy environment.
   C4.3  Describe the staff procedures, duties, and responsibilities related to safety, emergency, and disaster preparedness plans.
   C4.4  Demonstrate how to use certified first aid, cardiopulmonary resuscitation (CPR), and other emergency procedures.

### MATHEMATICS

#### Algebra – A-SSE – Seeing Structure in Expressions

*Write expressions in equivalent forms to solve problems*

3. Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression.

   a. Factor a quadratic expression to reveal the zeros of the function it defines.

   b. Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines.

   c. Use the properties of exponents to transform expressions for exponential functions. For example the expression $1.15^t$ can be rewritten as $(1.15^{1/12})^{12t} = 1.01212^{12t}$ to reveal the approximate equivalent monthly interest rate if the annual rate is 15%.

   d. Prove simple laws of logarithms. (CA Standard Algebra II - 11.0)

   e. Use the definition of logarithms to translate between logarithms in any base. (CA Standard Algebra II - 13.0)

   f. Understand and use the properties of logarithms to simplify logarithmic numeric expressions and to identify their approximate values. (CA Standard Algebra II - 14.0)

4. Derive the formula for the sum of a finite geometric series (when the common ratio is not 1), and use the formula to solve problems. For example, calculate mortgage payments.

## Functions – F-IF – Interpreting Functions

Interpret functions that arise in applications in terms of the context

4. For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity.

5. Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble $n$ engines in a factory, then the positive integers would be an appropriate domain for the function.

6. Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph.

## Functions – F-BF – Building Functions

Build a function that models a relationship between two quantities

1. Write a function that describes a relationship between two quantities.
   - b. Combine standard function types using arithmetic operations. For example, build a function that models the temperature of a cooling body by adding a constant function to a decaying exponential, and relate these functions to the model.

2. Write arithmetic and geometric sequences both recursively and with an explicit formula, use them to model situations, and translate between the two forms.

## Functions – F-LE – Linear, Quadratic, and Exponential Models

2. Construct linear and exponential functions, including arithmetic and geometric sequences, given a graph, a description of a relationship, or two input-output pairs (include reading these from a table).

## Geometry – G-C – Circles

Understand and apply theorems about circles

1. Prove that all circles are similar.

### Statistics and Probability – S-ID – Interpreting Categorical and Quantitative Data (continued)

**Summarize, represent, and interpret data on two categorical and quantitative variables**

6. Represent data on two quantitative variables on a scatter plot, and describe how the variables are related.
   a. Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, quadratic, and exponential models.
   b. Informally assess the fit of a function by plotting and analyzing residuals.

**Interpret linear models**

7. Interpret the slope (rate of change) and the intercept (constant term) of a linear model in the context of the data.

**Understand independence and conditional probability and use them to interpret data**

1. Describe events as subsets of a sample space (the set of outcomes) using characteristics (or categories) of the outcomes, or as unions, intersections, or complements of other events ("or," "and," "not").

2. Understand that two events A and B are independent if the probability of A and B occurring together is the product of their probabilities, and use this characterization to determine if they are independent.

3. Understand the conditional probability of A given B as \( P(A \text{ and } B)/P(B) \), and interpret independence of A and B as saying that the conditional probability of A given B is the same as the probability of A, and the conditional probability of B given A is the same as the probability of B.

### Statistics and Probability – S-MD – Using Probability to Make Decisions (continued)

4. (+) Develop a probability distribution for a random variable defined for a sample space in which probabilities are assigned empirically; find the expected value. For example, find a current data distribution on the number of TV sets per household in the United States, and calculate the expected number of sets per household. How many TV sets would you expect to find in 100 randomly selected households?

5. (+) Use probability to evaluate outcomes of decisions

   a. Find the expected payoff for a game of chance. For example, find the expected winnings from a state lottery ticket or a game at a fast-food restaurant.
